**Amiga Software Spectacular**

Offering our largest selection of titles for your Amiga ever, you'll get all-time greats such as Test Drive, Championship Baseball, Flight Simulator II and many, many more. We offer these super games as well as bargains on Amiga personal computers. See page 35.

**Timeworks Software Sale**

Timeworks has always offered great programs at good prices. Now, all our Timeworks software is on sale — and that includes favorites such as "Sylvia Porter's Financial Planner," "Swiftax" and "Word Writer 3." For an entire listing of titles, see page 23.

**\$20,000 In Cash And Prizes!**

How does \$20,000 in cash and prizes sound? Well, it's all yours when you enter and win Berkeley Softworks' GEOS Contest. The contest runs from now until June 30, 1988, and requires only your imagination to write your best program. See page 29.

**Gameshow Favorite**

Now, Sharedata includes "Wheel of Fortune II," a superb sequel to the original. Adding over 1000 new puzzles to "Wheel of Fortune," this second edition is simply outstanding. *Commodore Magazine* rated "Wheel of Fortune II one of the best." See page 4.

**77146 C64/C128, Disk** **\$7.95**

**GUN RUNNER.** Blast your way through enemy air space as you pilot your helicopter over the most dangerous regions in the sky. Your mission is to save your fellow comrades and return victorious. Colorful graphics and arcade sounds make this one game that will tantalize your eyes as well as your military knowledge.

**77519 C64/C128, Disk** **\$7.95**

**MATH MILEAGE.** You can practice basic addition and multiplication with this colorful road rally game. For ages 7 and up, Math Mileage is a great math tutor as it makes learning as much fun as playing a computer game. It can even sharpen math skills for adults.

**77166 C64/C128, Disk** **\$7.95**

**MURDER BY THE DOZEN.** You can work alone or with a team of up to 3 other "detectives." Solving the 12 tangled webs of crime and puzzlement is no easy task, but you're up to the challenge. Murder By Dozen is equally enjoyable for teens and adults.

**77200 C64/C128, Disk** **\$7.95**

**QUINK.** It's a race against the clock in this exciting game. You must decide what a group of items has in common and eliminate what doesn't fit. But, you need to be fast and you'll also need a keen eye for detail. Designed for ages 10 and up.

**77187 C64/C128, Disk** **\$7.95**

**THE RAILROAD WORKS.** Flex your creative muscles by designing your own railroad landscapes with The Railroad Works. You'll get 12 separate screens to design and you can take control as the engineer. Gain points by successfully transporting cargo and passengers. The Railroad Works is excellent for teens and adults alike.

**77193 C64/C128, Disk** **\$7.95**

**PATHWORD.** Here's a challenging word-building game where speed is just as important as word power. Designed for ages 6 and up, Pathword can be enjoyed by anybody. Strategy also plays an important part in this involving game so you've got to think quick. It's a great way to sharpen skills.

**77170 C64/C128, Disk** **\$7.95**

## The Arcade Classic!

**GALAXION.** Now this great arcade game is available for your Commodore. Unlike many games that lose much of their luster from the arcade versions to home computers, Galaxion outshines the competition. You'll get all the graphics and sound of the arcades plus 10 skill levels and a 1 or 2 player option, just like in the arcade. Blast enemy hordes from deep space.

**77310 C64/C128, Disk** **\$7.95**

## Explore Exciting New Worlds!

**WINTER CHALLENGE.** Test your athletic abilities in 5 winter events with up to 5 other challengers. Go for the gold in any or all of the events: Ski Jump, Bobsled, Giant Slalom, Downhill, and Biathlon. The superb animation and graphics lend to the excitement.

**77214 C64/C128, Disk** **\$9.95**

**TAU CETI: THE LOST STAR COLONY.** Combining depth and challenge with fast action, Tau Ceti is a thrilling space adventure. You'll get the most intriguing features in this program such as a 360-degree scanner, a 4-way screen and infrared night sights for night battles.

**77222 C64/C128, Disk** **\$9.95**

**IMPLOSION.** Brace yourself for multi-directional high speed chases and space adventures. You must maneuver your space ship against time to save the world from impending destruction. It's all up to you to save mankind from the ultimate end.

**77239 C64/C128, Disk** **\$9.95**

## A Blast From The Past!

**PLAY BRIDGE WITH TRUSCOTT.** Dorothy Truscott's classic book is translated into this informative and enjoyable computer game. It will take the beginner or intermediate player through 158 deals in an "Autobridge" manner, giving you up to 5 chances

to come up with the right play whenever it is your turn. You'll learn about safety plays, end plays, and squeezes in a "hands on" environment. The analysis for every deal is found in the book, which is included at no extra charge.

76667 C64/C128, Disk **\$29.95**

**PLAY BRIDGE WITH SHEINWOLD.** Developed by Thomas Throop, this is the first in a series of Autobridge® — style computer bridge products. These products are based on deals designed and analyzed by a number of the country's most prominent bridge experts. PLAY BRIDGE WITH SHEINWOLD consists of 91 challenging deals designed by Alfred Sheinwold, the world renowned columnist and author.

You play the cards as the declarer. Each time it is your turn to play from your hand or dummy, you are given from 1 to 5 choices to come up with the correct play. If you do not find the correct play, the computer program makes the proper play for you and the game continues. A personal copy of Sheinwold's book, *Bridge Puzzles*, is included in this package.

# Graphic Environment Operating System Get A "Mac" Look With Menus, Icons And Windows!

**GEOS.** GEOS dramatically changes the look and feel of the C64's and C128's operation by incorporating a menu, icon, and window based user interface similar to that pioneered by Xerox and popularized by the Macintosh. This means a much easier, friendlier, and faster way of communicating with the computer.

Beyond the most visible change in the screen display, GEOS does much more. By increasing the disk drive performance, GEOS is able to change page memory in from the disk. This allows applications to be developed that were previously only available on much more expensive computers. The result: two programs that provide an integrated environment for home desktop publishing — geoWrite and geoPaint.

geoWrite is a "what you see is what you get" word processor. Text appears on the screen exactly as it will be printed out. It includes 5 proportionally spaced fonts in a number of point sizes and type styles. geoPaint is a super graphics editing program that lets you use 32 different paint brushes, an airbrush, a ruler, and much more.

Graphics and text can be cut and copied between applications. Two special desk accessories — the Photo Manager and Text Manager — allow pieces cut and copied from write and print documents to be saved in albums, and later incorporated in new documents.

**GEOS 128.** GEOS 128 owners have the choice of choosing the more powerful 80-column 128 mode. GEOS 128 includes several new programs. First, it includes a

C128 mode geoWrite word processor, which makes good use of the 80-column display and the faster disk access. The package also includes geoPaint 128, a powerful graphics tool, plus the notepad, scrapbook, and calculator desk accessories; and the latest set of printer and input drivers. The GEOS package takes advantage of many of the C128's features, including the "fast" mode and special function keys. With a 1700 or 1750 RAM expander, you can set up a RAM disk for truly blazing speed. Find out how powerful your C128 really is — step up to the GEOS now!

## Desktop Publishing Power for Commodore

**GEOPUBLISH.** When GEOS first arrived on the Commodore scene, people could not believe that a mere software package could so dramatically transform their computer. Well, Berkeley's new geoPublish program will create a whole new group of amazed users. geoPublish is a complete desktop publishing system that runs on the C64 (or C128 in 64 mode), and can be used for newsletters, flyers, bulletins, term papers, etc.

geoPublish actually does things that some expensive Macintosh programs don't — for instance, you can "pour" your geoWrite document into column after column, page after page. The text will automatically flow around any graphics you have placed. geoPublish features an array of artistic tools to spark your creativity and make publishing easy — you can resize text, change fonts, and insert or delete graphics anywhere on the page. A scaling tool lets you shrink or enlarge your artwork. You can even place text over graphics (or vice-versa) if you want. For eye-grabbing headlines, geoPublish includes extra large "megafonts." One other key feature: geoPublish lets you integrate text and graphics from the entire GEOS family of programs, so you can create great looking documents that combine text, graphics, tables, charts, etc. Start making headlines today! For instance, you have the power to make a full screen-wide page. In other words, you can actually go out to the edge of the page.

The program also has full justification and centering, multiple rulers, search and replace, headers and footers, superscript and subscript, and much more. geoMerge is a powerful mail merge program that cuts repetitive tasks down to size. Combined with other GEOS applications, you can create personalized form letters; produce inventory/price tags and data lists. You'll also be able to quickly merge groups of address information and the Text Grabber converts documents from other word processing programs to the GEOS format. Another great part of this program, geoLaser, lets you use the Apple LaserWriter laser printer to produce near-typeset-quality output using GEOS, and access to a LaserWriter is no more than a phone call away. Simply upload your files onto QuantumLink. [See page 6] Your printouts will be mailed back to you, laser perfect! Only from Berkeley.

All you need to win is your Commodore, your trusty GEOS software, like geoWrite, geoPublish and Graphics Grabber etc. and your own superior imagination. So, boot up and get down to designing your best layout using GEOS applications.

The contest runs from now until June 30, 1988. There are four categories:

**Flyer** — Any one-page advertisement, handbill or data sheet. Includes two divisions, dot matrix and laser printer.

**Newsletter** — Two or more pages, including newsletters, brochures, and reports. Includes two divisions, dot matrix and laser printer.

**Poster** — One page, enlarges at least 200%. Laser printer only.

**Open Design** — Anything goes. No page limitation. Best use for desktop publishing. Includes two divisions, dot matrix and laser printer.

In all, there are 7 first prizes, each \$1,000 in cash, 7 second prizes and 7 third prizes. Winners will be announced by September, 1988 and will be chosen by the staff of RUN magazine.

Just send a disk and printout of your ultimate program to Berkeley Softworks, 2150 Shattuck Avenue, Berkeley, CA, 94704 Attn. GEOS Desktop Publishing Contest.

For complete rules and restrictions, send a self addressed stamped envelope to: TENEX Computer Express, P.O. Box 6578, South Bend, IN 46660 Attn. GEOS Contest.

## Triple Your Power!

**GEO TRIPLE PACK.** Now you can have 3 great Berkeley Products for one low price. **FONTPACK 1** contains 20 editing fonts to use with the GEOS applications. Each font brings its own unique character and impact to all your printed presentations. Typefaces range from traditional, to whimsical to a mathematical symbol font. Pick a font and a point size that suits your need. **DESKPACK 1** contains 4 desk accessories which can be used in any GEOS application. **Graphics Grabber** converts the artwork and graphics libraries of other popular Commodore graphics programs so that they can be used in GEOS. **Icon Editor** lets you convert non-GEOS files to the special GEOS format, as well as create your own customized icons. Icon editor will not alter the information in a file, or the way in which a file is stored on the disk. **Calendar** is a desk accessory that you can open while you are working in any GEOS application. Attach memos or notes to individual dates and keep up with your busy schedule! **Blackjack** lets you have a break after all the productive work you've done with GEOS! **GEODEX** is the compatible directory that generates mailing lists, printing address labels, and organizes everything. Arrange people by name, telephone number, or any other characteristics! geoDex comes with a mail merge that customizes form letters, announcements, invitations, etc. Requires GEOS. "The best drawing program around"  
— *Midnight Gazette Software*

**FLEXIDRAW VERSION 5.5.** This version of the ultimate drawing program has more features than ever. You can still use a light pen as your input tool (sold separately — see below), or you can use a mouse, joystick or Koala pad. Whether you are doing simple free-hand sketches or complex CAD-type drawings, Flexidraw has the power you need with its top quality hi-res graphic input and editing system. The master disk has the main drawing routines for use with the light pen, as well as sample drawing library, symbol templates and a music synthesizer program. A programming mode lets you access the drawing routines from BASIC. The sprite editor/ animator adds a great plus to FLEXIDRAW — there's no easier way to edit sprites than with a light pen. The most powerful feature is the ability to use a set of symbols (yours or ours) which can be moved to a second work screen and added to a drawing.

FLEXIDRAW is easy to use due to the sophisticated menu system which is similar to those of large computer drafting systems; maximum detail is possible. Free-hand drawing is very smooth because of an "averaging" function that filters out noise and jitter. From Inkwell Systems. Sug. Retail \$34.95

**The 39¢ Diskette!**

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure you get your money's worth!

**Here's What You Get**

Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement ring and write-protect notch.

**Certified Quality**

MicroPal Diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

**Lifetime Warranty Plus Risk Free Trial!**

We offer a double guarantee of satisfaction:

- 1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette.
- 2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

## Take A Real Close Look!

Because our systems prove as good on the inside as they look on the outside! Our first quality components are manufactured in the same factories supplying many of the big name and big markup computers. We just eliminate the middlemen and expensive advertising. The 1200 BAUD modem and the TURBO PLUS card, left, are shown with the TURBO PC/XT chassis.

**TURBO 286.** Now with hard disk controller and cables included. Completely compatible with IBM's AT, but can operate at either 8 or 10 MHz! Comes complete with all this: 640K RAM (expandable to 1 Meg. on motherboard), clock/calendar with lithium battery, one 1.2 Meg. 1/2 height floppy drive, parallel printer port, color graphic OR monochrome graphic monitor adapter, and AT style keyboard. Full-sized metal AT style case with key lock and indicator lights, and 200 watt power supply. You have to try our machines to truly believe the quality, performance and true compatibility.

Color card is compatible with RGB color monitors (IBM's CGA standard). Monochrome card is compatible with TTL monochrome monitors. All support Lotus graphics. For the ultimate in color resolution, consider the great enhanced graphics adapter (EGA) system described on opposite page.

# OKIDATA®

The Compatible, Speedy, Versatile,  
Affordable Printer For Everyone!

**180 CPS**

## Our Best Value Ever!

We have never before offered a printer this fast at such a low price!  
Built-in Commodore **and** parallel interface.

**OKIDATA 180.** Take a turn for the better with the OKIDATA 180, the one printer that's compatible with most computers! Here's a state-of-the-art general purpose printer with a **dual interface**. The Commodore serial interface allows you to easily connect to the Commodore C64 or C128, while the Centronics parallel interface connects to IBM and IBM compatible computers. Other computers which require a parallel interface (Apple II, II+, IIe, Atari ST, Commodore Amiga FX and virtually all CP/M and MS-DOS computers) can also be used with OKIDATA 180.

The ergonomic "one touch" front panel is designed to give you instant access to frequently used features — mode selection, pitch selection, line feed, form feed. Text and graphics print out lightning quick at 180 cps in high speed draft mode and 120 cps in utility mode. Near-letter-quality text prints at a speedy 30 cps. Includes both friction feed (for letterhead, envelopes, etc.) and fixed tractor for standard width perforated edge.

Here's a printer for the long run. The printhead is rated for a life of 200 million characters. Ribbon life is 3 million characters. And the OKIDATA 180 is backed by a one year warranty. With great features, compatibility, speed and low price, the Okidata 180 means real value. Sug. Retail \$329.00

**High Speed Multi-Font Printer**

**NX-1000.** This printer has been specifically designed for those who insist on quality, capability and reliability. The NX-1000 gives you the choice of pitches and print styles like: Courier, Sanserif, Orator-1 and Orator-2 type styles, in a choice of Pica, Elite, Condensed Pica and Condensed Elite. Italic is available in all print modes. Get **near-letter-quality** at 36 cps, and high-speed draft quality at a blazing 144 cps. With the aid of the new paper parking function you can now use the single sheet feeder without removing the tractor feed. "Push" style tractor reduces paper waste (you don't have to advance to the next page to remove your work.) The operator panel has been designed for easier use and enables soft-touch selection. The control panel also features LED indicator lights for instant confirmation of power, type styles, print pitches, and on-line status. Extra features like enlarged and proportional printing are also included on the NX-1000, a printer that easily out-distances all other printers in its class.

**Commodore-Ready Version**

**NX-1000C.** This is the Commodore-ready version of the NX-1000 (above). You can just plug this one in and start printing — no additional interfaces or cables are required. While many users prefer to buy the parallel version and use a separate interface (usually for more flexibility — some interfaces may allow more fonts or graphics, and a parallel printer can be used with other brands of computers such as IBM, Apple, and others,) the NX-1000C offers outstanding features at a very economical price.

## True Letter Quality Printing For Only **\$89<sup>95</sup>**

- **Commodore Ready — Just plug it in**
- **Includes Boldface, Underlining, Superscripts, Subscripts and more**
- **High quality printing for letters, reports, assignments, etc.**
- **Compare to printers costing hundreds more!**

The Blue Chip Word Processing Printer is by far the best value we've ever offered on a true letter quality printer. With it, you'll print your correspondence in type that looks just like an expensive electronic typewriter — that's right, fully formed letters, no dots. Even if you already have a printer, the Blue Chip will be a great addition to your setup for those times when you want your documents to look their very best.

You might think that at this low price the printer would lack important features. In fact, it has features found only on far more expensive letter quality printers, such as **boldface, underlining, superscripts, subscripts, adjustable line spacing, pica and elite printing, and more.** The Blue Chip features bi-directional speed of over **150 words per minute.** Its friction feed mechanism operates just like a typewriter's with a paper release lever and paper advance knob, so you can use it for letterhead, envelopes, typing paper, etc. The Blue Chip is Commodore-ready — just plug it into the serial port of your C64 or C128 using the included cable, and you're ready to go. The Blue Chip uses standard Brother Daisywheels, so you'll be able to easily find additional type styles to suit your needs. Included with the printer is a high quality black film ribbon that lasts for 70,000 characters.

Because we made a huge purchase of an overstock in these great printers, we can offer you unbelievable savings. But our supply is limited, so don't miss this fantastic bargain — order yours today, and find out how good your documents can really look! Six month warranty.

## SP-1200AI Dot Matrix Printer With Advanced Features

**SP-1200AI.** Just look at these great features! The Seikosha SP-1200AI features a print speed of 120 cps in draft mode with the added plus of reduced noise level. Or slow it down to 25 cps for excellent near-letter-quality printing. Pin-feed and friction-feed are standard with an automatic paper loading function. Character sets include pica, elite, italic, condensed and double-width along with underlining, bold double-striking and superscripts/subscripts. Also includes right and left margin set functions, 2.3K buffer, and 8 kinds of dot addressable graphics. Superior technology and craftsmanship produce uncompromising quality in this printer so you can buy with confidence. Standard parallel (Centronics) input — to use with Commodore computers, a parallel interface (see page 45) is required.

**Real-Time Racing**

**SPEED BUGGY.** Arcade action without the quarters! Experience the thrills and spills of high-speed racing with Speed Buggy. You can conquer a variety of courses by running into flags to gain points while avoiding any number of obstacles. You must watch out for fallen trees, boulders and other obstacles. Speed Buggy allows you to develop real time racing skills by jumping your buggy over obstacles and driving on two wheels to gain time and bonus points. Excellent graphics and attention to detail make this a superior simulation. From Data East.

**Surviving Means More Than Winning**

**PLATOON.** Inspired by the award-winning film, Platoon, this game places you, as an American soldier, in war-torn Southeast Asia. Like the American combat soldiers, you, too, will learn that winning means nothing in the face of death. Surviving is conquest enough.

Relive the Vietnam experience as you lead your pla-

toon into the jungles, villages, bunkers, foxholes and underground tunnels. Each of these obstacles presents a new danger to you and your men. You'll encounter guerilla fighters, snipers, booby-trapped trip wires, armed patrols, air strikes and even napalm.

In order to stay alive, you must pick up food, medical supplies and ammunition along the way. At times, it may seem that the odds are insurmountable; winning is out of the question. Just surviving is your only objective . . . and your only hope. From Data East.

### Space Saving Printer Stand

**PRINTER STAND.** At last a printer stand priced for homes and small offices! We've always liked the convenience and organization of an elevated printer stand — you can put your paper underneath the stand to save valuable table space and make feeding easier. The problem, up until now, has been price. Stands sold to the office market often cost \$40, \$50, \$60 or even more! These great stands from Suncom, a leader in microcomputer accessories, solve the price problem and offer features not found on models costing more than twice as much.

The stands feature **heavy-duty welded steel wire construction** and have a vinyl coating to reduce noise and vibration and provide an attractive appearance that will blend with your computer decor. Another plus that the designers of many more expensive stands left out: the Suncom stand holds the printer at an angle that makes it much easier to see your output as it is being printed.

We use one in our office and agree that this much convenience at such a low price is a real value. Available in 2 widths: 12" for most 80-column printers (Gemini 10X, SG-10, NX-10, etc.), and 18" for most 132-column printers (Gemini 15X, SG-15, FX-100, etc.).

## Introducing The World's First High Performance Joystick!

**EPYX 500XJ JOYSTICK** features a molded design that conforms to the palm of your hand for a comfortable, natural fit without feeling delicate or unable to withstand the rigors of intense use. You'll shoot more accurately, more quickly and with much less fatigue. The unique shaft switches allow you to not only feel, but hear each and every move of the stick for the most exacting control you've ever imagined. You'll conquer all those games in which you just couldn't get past that certain level of scoring and you'll enjoy those games even more. Its trigger finger firing was designed with accuracy in mind and the short and precise "throw" (the distance that the stick moves) makes the 500XJ as responsive to your commands as are your own hands.

The EPYX 500XJ Joystick scores significantly higher, faster and easier than any joystick ever made! Epyx is so confident of the 500XJ and its abilities that they include a 5 year warranty. ### Cartridge Port Extender

**Best Seller!**

**CARTRIDGE PORT EXTENDER.** Are you cramped for space behind your computer? Is it hard to reach your cartridge port to plug-in or swap cartridges? This handy cable is your solution.

The cartridge port on the C64 and C128 is unfortunately located in a somewhat awkward position — horizontally in the back, where it is hard to reach and impossible to see. Many users have installed cartridge expanders, which not only let you switch cartridges easily but also places them vertically for easier access. The cartridge expander, though, takes up a few more inches of table space — no problem for most users, but a drawback for those working in tight quarters. This cable connects to the cartridge port in back of the computer and lets you plug in your cartridge to its other end. Since the cable is flexible, you can locate the cartridge up to 11" away for easier access and more efficient use of table space.

One of the most popular uses of home computers is to "talk" to other computers and computer users. The diversity of on-line services is staggering — from the latest news to airline schedules, from stock prices to interactive adventure games, from electronic mail to patent searches — all you need is your computer, a modem, terminal software, and a phone line. In addition to the national on-line databases like the Source, CompuServe, Dow Jones, and others, there are hundreds or even thousands of local "bulletin boards" run by user groups or individual enthusiasts. Telecomputing is so much fun and offers such a variety of activities that for many users it is the principal use of their home computer.

# Abacus Software

Abacus, leading producer of utility software and programming languages for the Commodore home computer, is also a leading publisher of books that explain many of the lesser known features of the Commodore line and show how to program new applications that tap the hidden power of the C64 and C128!

## The Commodore 64 Library!

**THE MACHINE LANGUAGE BOOK OF THE C64.** A great starter volume for programmers who want to go beyond BASIC and take advantage of the speed and performance of machine language. This volume also includes 3 complete program listings — an assembler for writing your own programs, a disassembler to inspect other machine language programs, and an amazing 6510 simulator to “see” the operation of the processor right on the screen. 215 pages.

## Our Shipping & Return Policy

Your charge card is never billed until your order is shipped! If we must send you partial shipments, your charge card is only billed for the items shipped.

**SHIPMENT.** Most items are shipped via UPS. Other modes of shipment include Parcel Post and, for certain heavy items, common truck carrier. TENEX maintains an extensive warehouse with over 50,000 items in stock, and automated systems are in place to speed your order to you. Rapid shipment benefits both you and us. Items not in stock may require 2 to 6 weeks.

**DAMAGE.** We inspect each item before shipment. Please examine your packages carefully when you receive them, and REPORT ANY DAMAGE TO THE CARRIER. No replacement merchandise can be issued unless a damage claim has been filed with the shipper.

**RETURNS.** Defective products may be returned for replacement within 30 days of receiving them. Items returned for replacement MUST include original packaging materials and any manuals, cables, warranty cards, etc. included in the original package. (For your convenience and protection, do not discard packaging materials or mail in warranty cards until you are certain the product is working properly.) Please write or call our Customer Service Department for a Return Authorization number prior to returning any items to TENEX. All returns must be shipped to TENEX freight prepaid. All items are subject to inspection by TENEX prior to issuance of replacement merchandise.

**APO, FPO, ALASKAN, HAWAIIAN, CANADIAN.** All payment must be in U.S. Dollars. Checks drawn on Canadian or foreign banks cannot be accepted. Canadian Postal Money Orders payable in U.S. funds are acceptable. VISA, Mastercard or American Express are the preferred methods of payment.

**APO, FPO, Alaskan, Hawaiian, Canadian, Puerto Rican, Virgin Islands, Guam orders:** add \$4.00 to shipping and handling charge to cover postage and insurance cost. Contact us about charges for bulky and/or heavy items.

**Foreign orders other than above:** add \$8.00 to shipping and handling charge. If ordering large or heavy items, consult desired carrier for estimated freight charges and include with order, or contact us prior to ordering for a freight estimate. If funds included with order are inadequate to cover shipping costs, we will notify you by airmail. Postage or freight and insurance charges will be billed at actual cost on credit card orders.

**PRICES.** All prices are subject to change without notice. You will be notified of any change at the time of order placement, or prior to shipment on a non-stock item.

**SPECIFICATIONS AND PRODUCT AVAILABILITY.** Specifications and product availability are subject to change without notice. We have made every effort to be accurate in the specifications and descriptions included in this catalog, but cannot guarantee accuracy or completeness of said specifications and descriptions.

**PAYMENT METHODS:** For fastest shipment, VISA, MASTERCARD, AMERICAN EXPRESS, a cashier's check, certified check, or money order may be used. Personal checks are also welcome — please allow about 10 extra days for shipment. Purchase orders will be accepted from qualified institutions and firms; please inquire.

**IF ORDER FORM HAS ALREADY BEEN USED,** please write your order on a plain sheet of paper or order by telephone using our convenient toll-free number. If you send your order on plain paper, be sure you include your name and address, the catalog number of each item ordered, and the appropriate shipping charge. If you would like us to send you additional order forms, please write or telephone us.

**WARRANTIES.** All of the products offered by TENEX feature a manufacturer's warranty or guarantee. Information about the type or length of coverage of any item is available by calling or writing our Customer Service Department. Generally, warranty service on equipment can be obtained by either shipping or taking the unit to the nearest service location for that manufacturer, along with your receipt and/or other information required by the manufacturer.

## Say NO To The Mail Order Tax!

As a mail order consumer, you should be aware that Congress is considering a bill (H.R. 1242, The Interstate Sales Tax Collection Act of 1987) that would require you to pay sales tax on your out of state mail order purchases.

This would affect you in two ways. The first and most direct effect on your pocketbook is that your purchases from out of state mail order firms would cost more. One of the reasons consumers shop via mail order is to save money — for many consumers, this proposed law would raise their out of pocket cost by as much as 8%, depending on their state sales tax.

The second, and less obvious effect, is that mail order firms' costs would increase due to much greater paperwork requirements; for example, we would have to file 46 sales tax returns instead of our current one. And we are one of the fortunate ones — we're fully computerized. Some firms with less advanced order processing systems might be forced out of business.

The legislators who support this bill are presenting it as a tax on out of state firms who are not paying their share of state taxes. While the bill is certainly a burden on out of state firms, it is really a tax on you the consumer who chooses to shop by mail.

If you do not want to pay sales tax on items you order from out of state firms, please write your Congressman and Senators today. Unless they know that the voters in their districts care, they will pass this subtle but costly tax.

## If You Have Questions About Your Order ...

For questions about your order, call (219) 259-7051 between 8 a.m. and 5 p.m. Eastern Standard Time, Monday through Friday. No collect calls, please.

### Phenomenal Futuristic Game

**BATTLEDROIDZ.** The warriors of the future are not of flesh and blood, but of silicone and steel. They are BattleDroidz.

You are the commander of a trio of BattleDroidz whose task is to conquer each of a series of 3 dimensional warzones by capturing the energy keys. You'll encounter a different landscape in each warzone from rolling digital hills to searing acid pools, and you must be constantly on guard against your arch enemy, the Cyborites with features such as full-color 3-D landscapes, bonus levels and non-stop action. BattleDroidz will involve you for hours on end. From Electronic Arts.

## Formed Especially For The Human Hand

**ERGOSTICK JOYSTICK.** This is the cutting edge of joystick technology. It's the Ergostick Joystick and you'll be amazed at its innovations. Unlike all other joysticks, the Ergostick is literally formed around the human hand which optimizes the operator's hand/eye coordination. Its soft, skin-like texture combined with its design minimizes physical and mental fatigue and gives it a degree of versatility previously unknown to joystick users. For instance, it fits both large and small hands while placing the "fire" button directly adjacent to the index finger.

Like all Wico products, the Ergostick is built with speed, accuracy and durability in mind. It's the shape of the future.

## Use The CP/M Built Into Your C128!

**Learn How To Download Free CP/M Software  
Includes Free CP/M Programs — Word Processor, Disk Utilities,  
Communications, More!**

**CP/M KIT.** CP/M on the 128 can be an unfulfilled promise — few C128 users have actually found ways to access the many CP/M programs written for other computers. Now, we have the answer... CP/M Kit from INCA.

- Explains some programs on Commodore's System Disk.
- Demonstrates main features of Commodore's CP/M.
- Shows you how (using a modem) to obtain more CP/M programs and information.

CP/M Kit includes an informative guide to using CP/M on your C128 using your 1541 or 1571 drive, and on using your modem to access electronic bulletin boards that offer free, downloadable software. Also included are lists of books about CP/M sources of free, public domain CP/M software. Two disks loaded with free CP/M software are also included. Programs include a powerful word processor, a terminal (communications) program, a chess program, plus many disk and screen utility programs.

## Our Best Keyboard Buy Ever!

Tenex  
Exclusive

**COLORTONE KEYBOARD.** Enter a new world of music with the ColorTone Keyboard in which tones have colors and making music is as easy as listening. From the very first time you try, you'll make wonderful music with hardly any effort and you'll learn more each and every time you play.

Just plug the ColorTone Keyboard into the joystick port of your Commodore 64 and you're ready to harmonize. You may choose from 8 instruments including drums, guitar and organ and select any one of 12 pre-programmed songs from Classical to Technopop. In only a few short sessions, you'll be able to create your own music. Once created, you can play back the music you composed yesterday or last month. Each time you create or play back your music all the notes appear on the computer screen so you can actually see each note as it is being played. The 25 keys give you a full 2-octaves and the "Touch Harp" can be played by gliding your fingers across the rainbow strip. It may be strummed like a guitar or repeatedly tapped to create a rhythm.

The ColorTone Keyboard is the easiest hands-on way to learn music and is a great way to explore very sophisticated music concepts. From Waveform, the makers of MusiCalc. Sug. Retail \$49.95
